

2009 LÖWDIN LECTURES

=====

The 2009 Löwdin lectures will take place

on Thursday p m, June 11, and Friday p m, June 12,
in Häggsalen, The Ångström Laboratory, Uppsala.

This year's lecturers are Prof. Leo Radom, University of Sydney,
and Prof. Rod Bartlett, University of Florida.

Both are among the world's leading theoretical chemists and excellent lecturers. The titles of their talks will be announced later, but I suggest that you take a look at their homepages

<http://www.chem.usyd.edu.au/research/radom.html>

and

<http://web.chem.ufl.edu/people/faculty/contact.php?id=8>,

respectively, to get an idea of their fields of research.

There will be time for individual discussions for those interested.

Mark June 11 – 12 in your calendar for this event!
